

"Toni, your energy and enthusiasm are unbelievable. You are a terrific person, and you really lit up our school for one beautiful day."

~ Megan Moelbert, Librarian, Boston Valley School, Hamburg, New York

School and Library Speaking

I love to speak to students and their teachers, or to children and parents at family literacy events, about my books, the process of writing, and the journey of the story from idea to book (see a list of popular workshops below). I am available for school and public library visits across the country—and around the world at international schools.

Through my author visits, students are inspired in their reading and writing, make text-to-self connections, and see a model of a professional writer as they plan their own career paths.

Testimonials

"I have gotten so many comments from our teachers appreciative of your visit, the clear message you sent to kids that writing is hard work and that real authors revise so many times, and your ability to engage kids at so many different levels! You made a real impression on both the kids and the teachers. A fifth grade teacher told me that Village School was so lucky to have strong connections with such a great author who was willing to share all sides of what it meant to be a writer." ~ Eunice Bentley, Literacy Specialist, Village School, Gorham, Maine

"From a librarian's perspective, it was wonderful to see the children make the connection from a life lived, to a story written, then all the way to the finished product in book form—all standing right before them! We are truly grateful for the 'piece of magic that came to life' in our library this past September." ~ Rosanna Webb, LMS, Lindsay ISD, Lindsay, Texas

"Hard to believe that it was just two weeks ago that you were here, that we've had a vacation in between, and that the children are still excited and talking about you as if it were just moments ago that you were with them. If you had only half the influence on every school you visited that you had on my class alone, you would be a total success. Your genuine love for children and your dedication to your writing are special talents." ~ Barb Richter, Second Grade Teacher, Carder Elementary School, Corning, New York

"We consider your visit to have been the most powerful and far-reaching of any author visit we've had. We look forward to continued collaboration, especially with our blossoming young authors in the Buzzeo Writing Club." ~ Dorothy Daves, LMS, Glenridge School, Clayton, Missouri

"We had a wonderful time during your visit at Hall School. The children love your books, as do I! Most importantly, all of them are more excited now about writing than ever. Thank you so much for sharing your love of words and writing with us." ~ Andi Bagley, Grade 3 Teacher, Hall School, Portland, Maine
